

Happy New Year!

Thank you for submitting your development team project: Design Document.

Please see your feedback below:

**Please be aware that the grade may change due to the moderation and adjustment process.**

**Knowledge and understanding of the topic/issues under consideration (25%):**

You have provided a good level of knowledge & understanding through the selection of regulations that you have listed. There is some explanation of the relevance of these to your allocated website. You have discussed further the ICO and mentioned GDPR and DPA regulations.

**Merit**

**Application of knowledge and understanding (25%):**

Very good demonstration of the application of knowledge – particularly strong around the table provided. You have clearly specified the security vulnerabilities and the various threats that are apparent. You have made some referral to the NCSC etc. that these vulnerabilities were relevant to.

**Excellent-Distinction**

**Criticality (25%):**

Very good use of references to support the list of recommendations /mitigations you have provided. You have also ordered these by the level of potential risk to the organisation in a clear format. Your summary of the recommendations in the table provides some relevant additional information to justify the tools you have suggested to use.

**Excellent-Distinction**

**Structure and Presentation (25%):**

A well-organised report with the sections clearly addressed. You have included a brief introduction to start off the report. Good selection of references, suitably formatted to add depth to your analysis. Spelling and grammar is good throughout.

**Excellent-Distinction**
