

Hi Michael,

It's great to hear that you are enjoying the module and the range of topics covered. In terms of feedback, you are clearly demonstrating your knowledge and understanding in the discussions with responses that are well researched and critically analysed and you have been a great asset to the module! The self-healing BIOS that you mentioned is a good example. I'm pleased that your team are working well together, and you are all sharing your ideas which I'm sure will be reflected in the assessments.

If you have any questions, feel free to contact me.

Regards, Beran (24.November.2021)
