

Hi Michael,

Throughout the module it has been a pleasure to work with you.

You have provided detailed discussion posts addressing the variety of topics covered and responded to your colleagues' posts with thought provoking peer responses.

You have performed well in the seminars, producing slides etc. and presenting your viewpoints with clarity.

The first graded assessment was to a high standard, and you have clearly taken a strong role in the group work.

I am pleased that you have enjoyed the module and I look forward to reading through the final submissions.

Regards, Beran
