Criteria and weighting	Level	Comments
All e-portfolio/reflective activities provided in the module. Aim to showcase at least 1 artefact from each unit. **(Application of Knowledge weighted at 10%),**	**Excellent**	Excellent application of e-portfolio content. The content is clearly laid out, with an effective cross-section of unit-based evidence and discussion present. Excellent level of individual independent working and evidence of content in the e-portfolio. Content is effectively sectioned to represent different aspects of the e-portfolio requirement.
(Independent working weighted at 10%)	**Excellent**	You are able to work on your own initiative, asking pertinent questions where relevant and then acting upon tutor advice to build subsequent summative.
All statistics exercises you have completed throughout this module, including those from the mandatory worksheets in Units 8 and 9. **(Application of Knowledge weighted at 10%)**	**Excellent**	Statistical exercises/exercises in Unit 8 and 9 completed to an excellent standard, with evidence of the exercises completed applied as part of the e-portfolio as required.
Your evaluation of your Literature Review and Research Proposal submissions **(Independent working weighted at 10%)**	**Excellent**	There are evaluations present for both the Literature review and the Research Proposal presentation which highlight your thought process and intended direction for both of these summative. You have worked to an excellent standard regarding independent work in these particular sections presented in your e-portfolio given your feedback for these at summative.
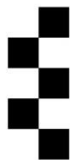

Feedback for RRMP E-portfolio Summative

Reflections on **(Criticality weighted at 40%)**: your statistical analysis skills. the research methods process based on your learning in this module the impact on your personal/professional experience based on your completed professional skills matrix and any associated SWOT Analysis and/or Action Plan.	**Excellent**	The personal module reflection is effective and takes into account ethics as primary discussion but does then draw through a consistent thread regarding this point [and others] through modules and units, with some effective theoretical as well as personal professional practice discussion. Your statistical analysis skills have been completed to an excellent standard. There are also effective reflections regarding unit development and what you have learnt through each unit. You have also completed the skills matrix and SWOT analysis, as well as supporting course notes. A really thorough critical reflection throughout the e-portfolio, to an overall excellent standard.
Structure and Presentation weighted at 10%	**Outstanding**	The structure and presentation of the e-portfolio is completed to an outstanding standard, with the content being logical well thought through and easy to navigate.
You will also be assessed on the correct use (and format) of citations and references in your e-portfolio **(Academic Integrity weighted at 10%).**	**Excellent**	There is reasonably regular citation through the bulk of your work. You have endeavoured to use a good cross section of research references, and you are developing well academically from the perspective of understanding what academic requirements are for modular content. Your referencing and citation in the module are completed to an excellent standard overall
Overall		

Positives:
- Overall, an excellent outcome
- With some outstanding structure and presentation of the e-portfolio

Points for development:
- Continue to develop your research and approach to academic content for your final capstone module
